DETAILED ACTION

Information Disclosure Statement

1. The Information Disclosure Statement filed October 31, 2008 was considered. The Office Action from 10/250,647 dated September 15, 2008 was considered by the examiner, but the citation is lined through because the Office Action is not published.
2. The Information Disclosure Statement filed September 5, 2008 was considered. Two references, JP 99-147867 and JP 11-312522, are lined through because the information disclosure statement fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. Although the references correspond to US patents, the patents are not shown to be the same as the cited Japanese references, but only claim priority to the references.

Allowable Subject Matter

3. Claims 1 and 3-25 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art does not teach the lithium manganese complex oxide of claim 1 having a 2x2 superlattice.

The Non-Final Rejection of May 15, 2008 cited Koksang in view of Manev et al. The combination of the references does not teach the superlattice of the instant claims.

Additionally, Amine et al. (A New Three-Volt ...) is cited presently as the closest prior art of record. Amine et al. teach a $\text{LiMn}_{1.5}\text{Ni}_{0.5}\text{O}_4$ positive active material, but it is seen in Fig. 1 of the article that the material does not contain the claimed 2x2 superlattice.

As for claim 8, neither Koksbang in view of Manev et al. nor Amine et al. teach the claimed method. None of the references teach the use of a eutectic or intermetallic precursor. Further, Amine et al. teach formation of the active material in a low-temperature sol-gel process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
